The formal meetings were mostly organizational. My sense is that by this point the members of the committee are both extremely happy with Nicole's progress and comfortable giving her feedback one-on-one. Nicole is also doing an excellent job of seeking out feedback and following up with things the committee mentions in sermon evaluations.

The main purpose this semester was to continue to give our student pastor direct feedback on all aspects of her weekly preaches and homilies. I also found it very important to make sure we were fulfilling scriptoriness expectations going into the final semester.

Purpose was to keep in contact with the student and to keep the focus on her work here. Hope we were helpful in offering general support and encouragement.
